I suggest that Lynn and David go ahead with this afternoon's call, and if they feel that there are any lingering issues that the group should discuss, Lynn could set up a quick call at 8:30 a.m. tomorrow before the CFAC call.

Hi Lynn,

I am in the field all day today. I hope David Berry is able to be on this pre-call.

I am available to talk on the phone any time before the call on Friday morning at 9AM. Let me know if that will work.

Thanks.

Brian

Brian/David –

Erin Formanek has another project deliverable she is working on this week, so she asked me to assist with the review of the CFAC Background Investigation SAP. We are in the process of preparing comments on the document, but in light of the expedited review schedule and the call on Friday morning, I was hoping you might be available to have a pre-call tomorrow to discuss comments and strategy. I'm available any time after 10AM MT tomorrow, please let me know if there is a time window that would work best for you.

Thanks,

Lynn

Subject: CFAC Draft Background Investigation Sampling and Analysis Plan

Mr. Cirian,

Attached is the Draft Background Investigation Sampling and Analysis Plan (Background SAP) prepared for the CFAC RI/FS.

As discussed during our onsite meeting in early May, CFAC/Roux plans to complete Round 1 of background sampling during the June high-water sampling event (beginning June 4, 2018). CFAC/Roux would like to setup a conference call with EPA/MDEQ early next week to discuss the background sampling scope and schedule. Please let me know your availability for a call early next week.

Please contact me if you have any questions regarding this submittal.
